

Ditch legacy POS.

Stop paying **₹35,000** for legacy billing software.

Upgrade your restaurant to the cloud. Swipe to see how →

How to Use Restaurant POS Features to Speed Up Orders and Payments

Use screens you own.

Run your restaurant on the screens you already own.

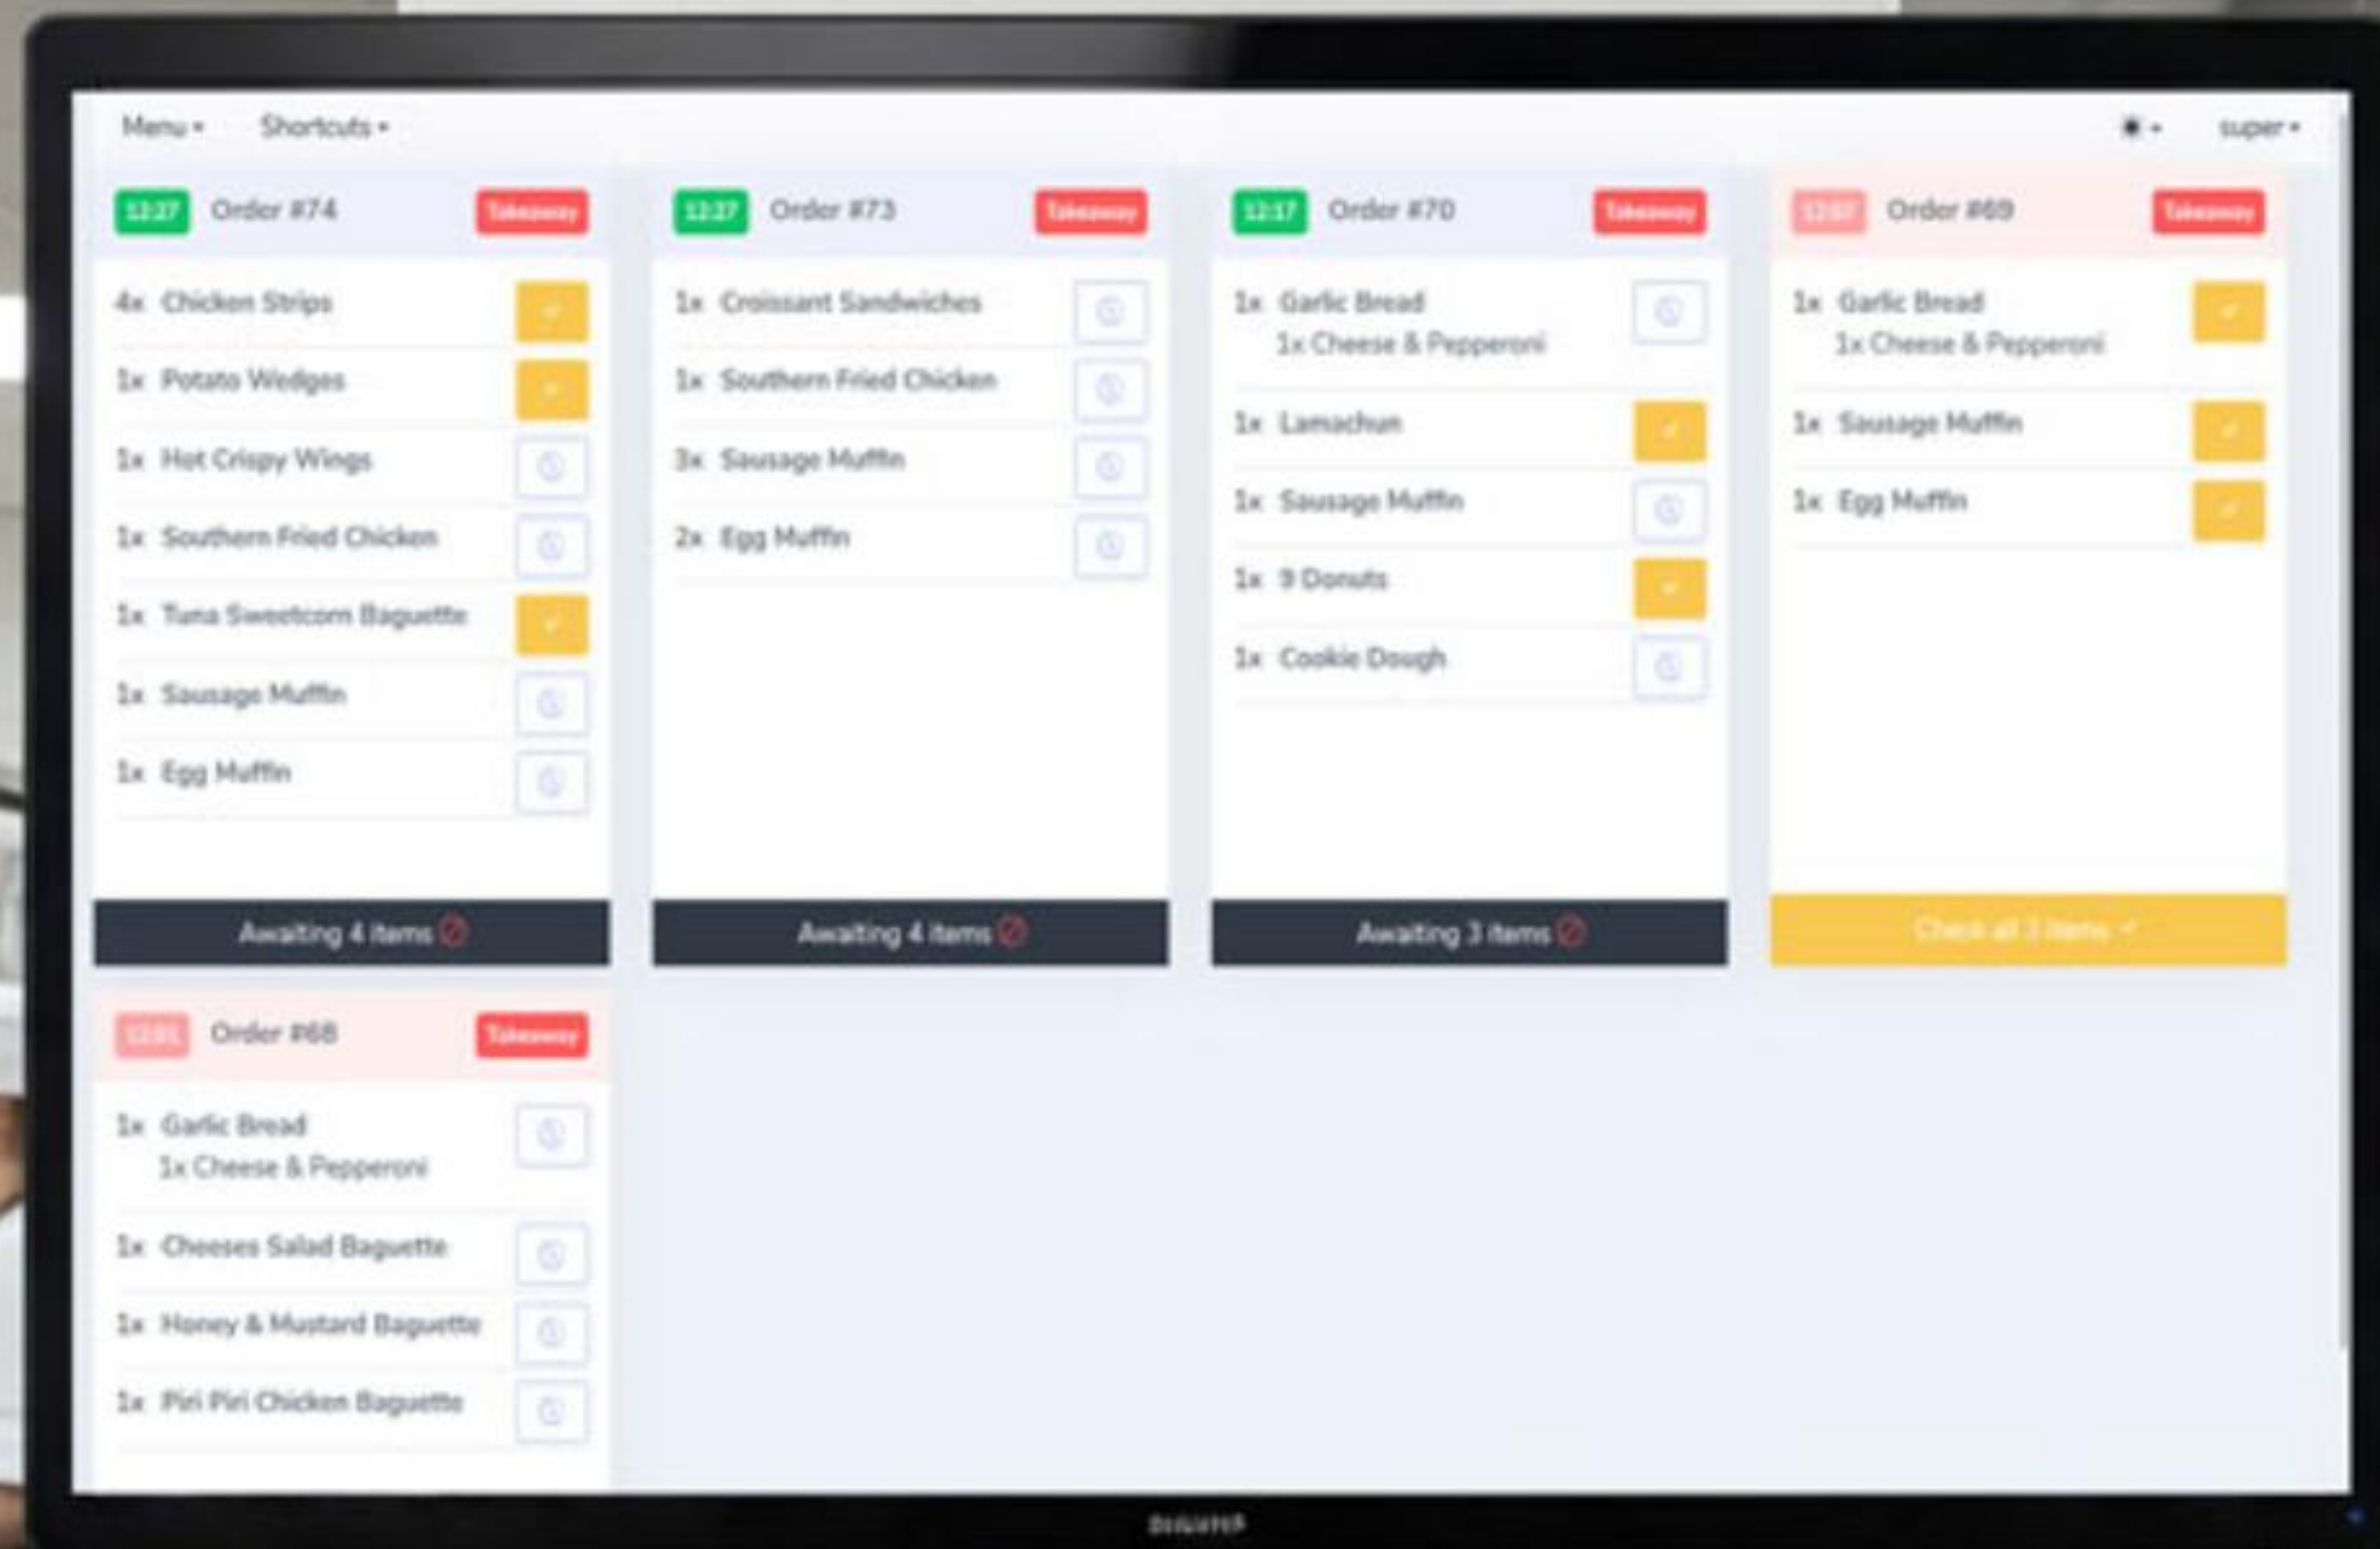

Ahhar works on any phone, tablet, or PC. No clunky POS hardware required.

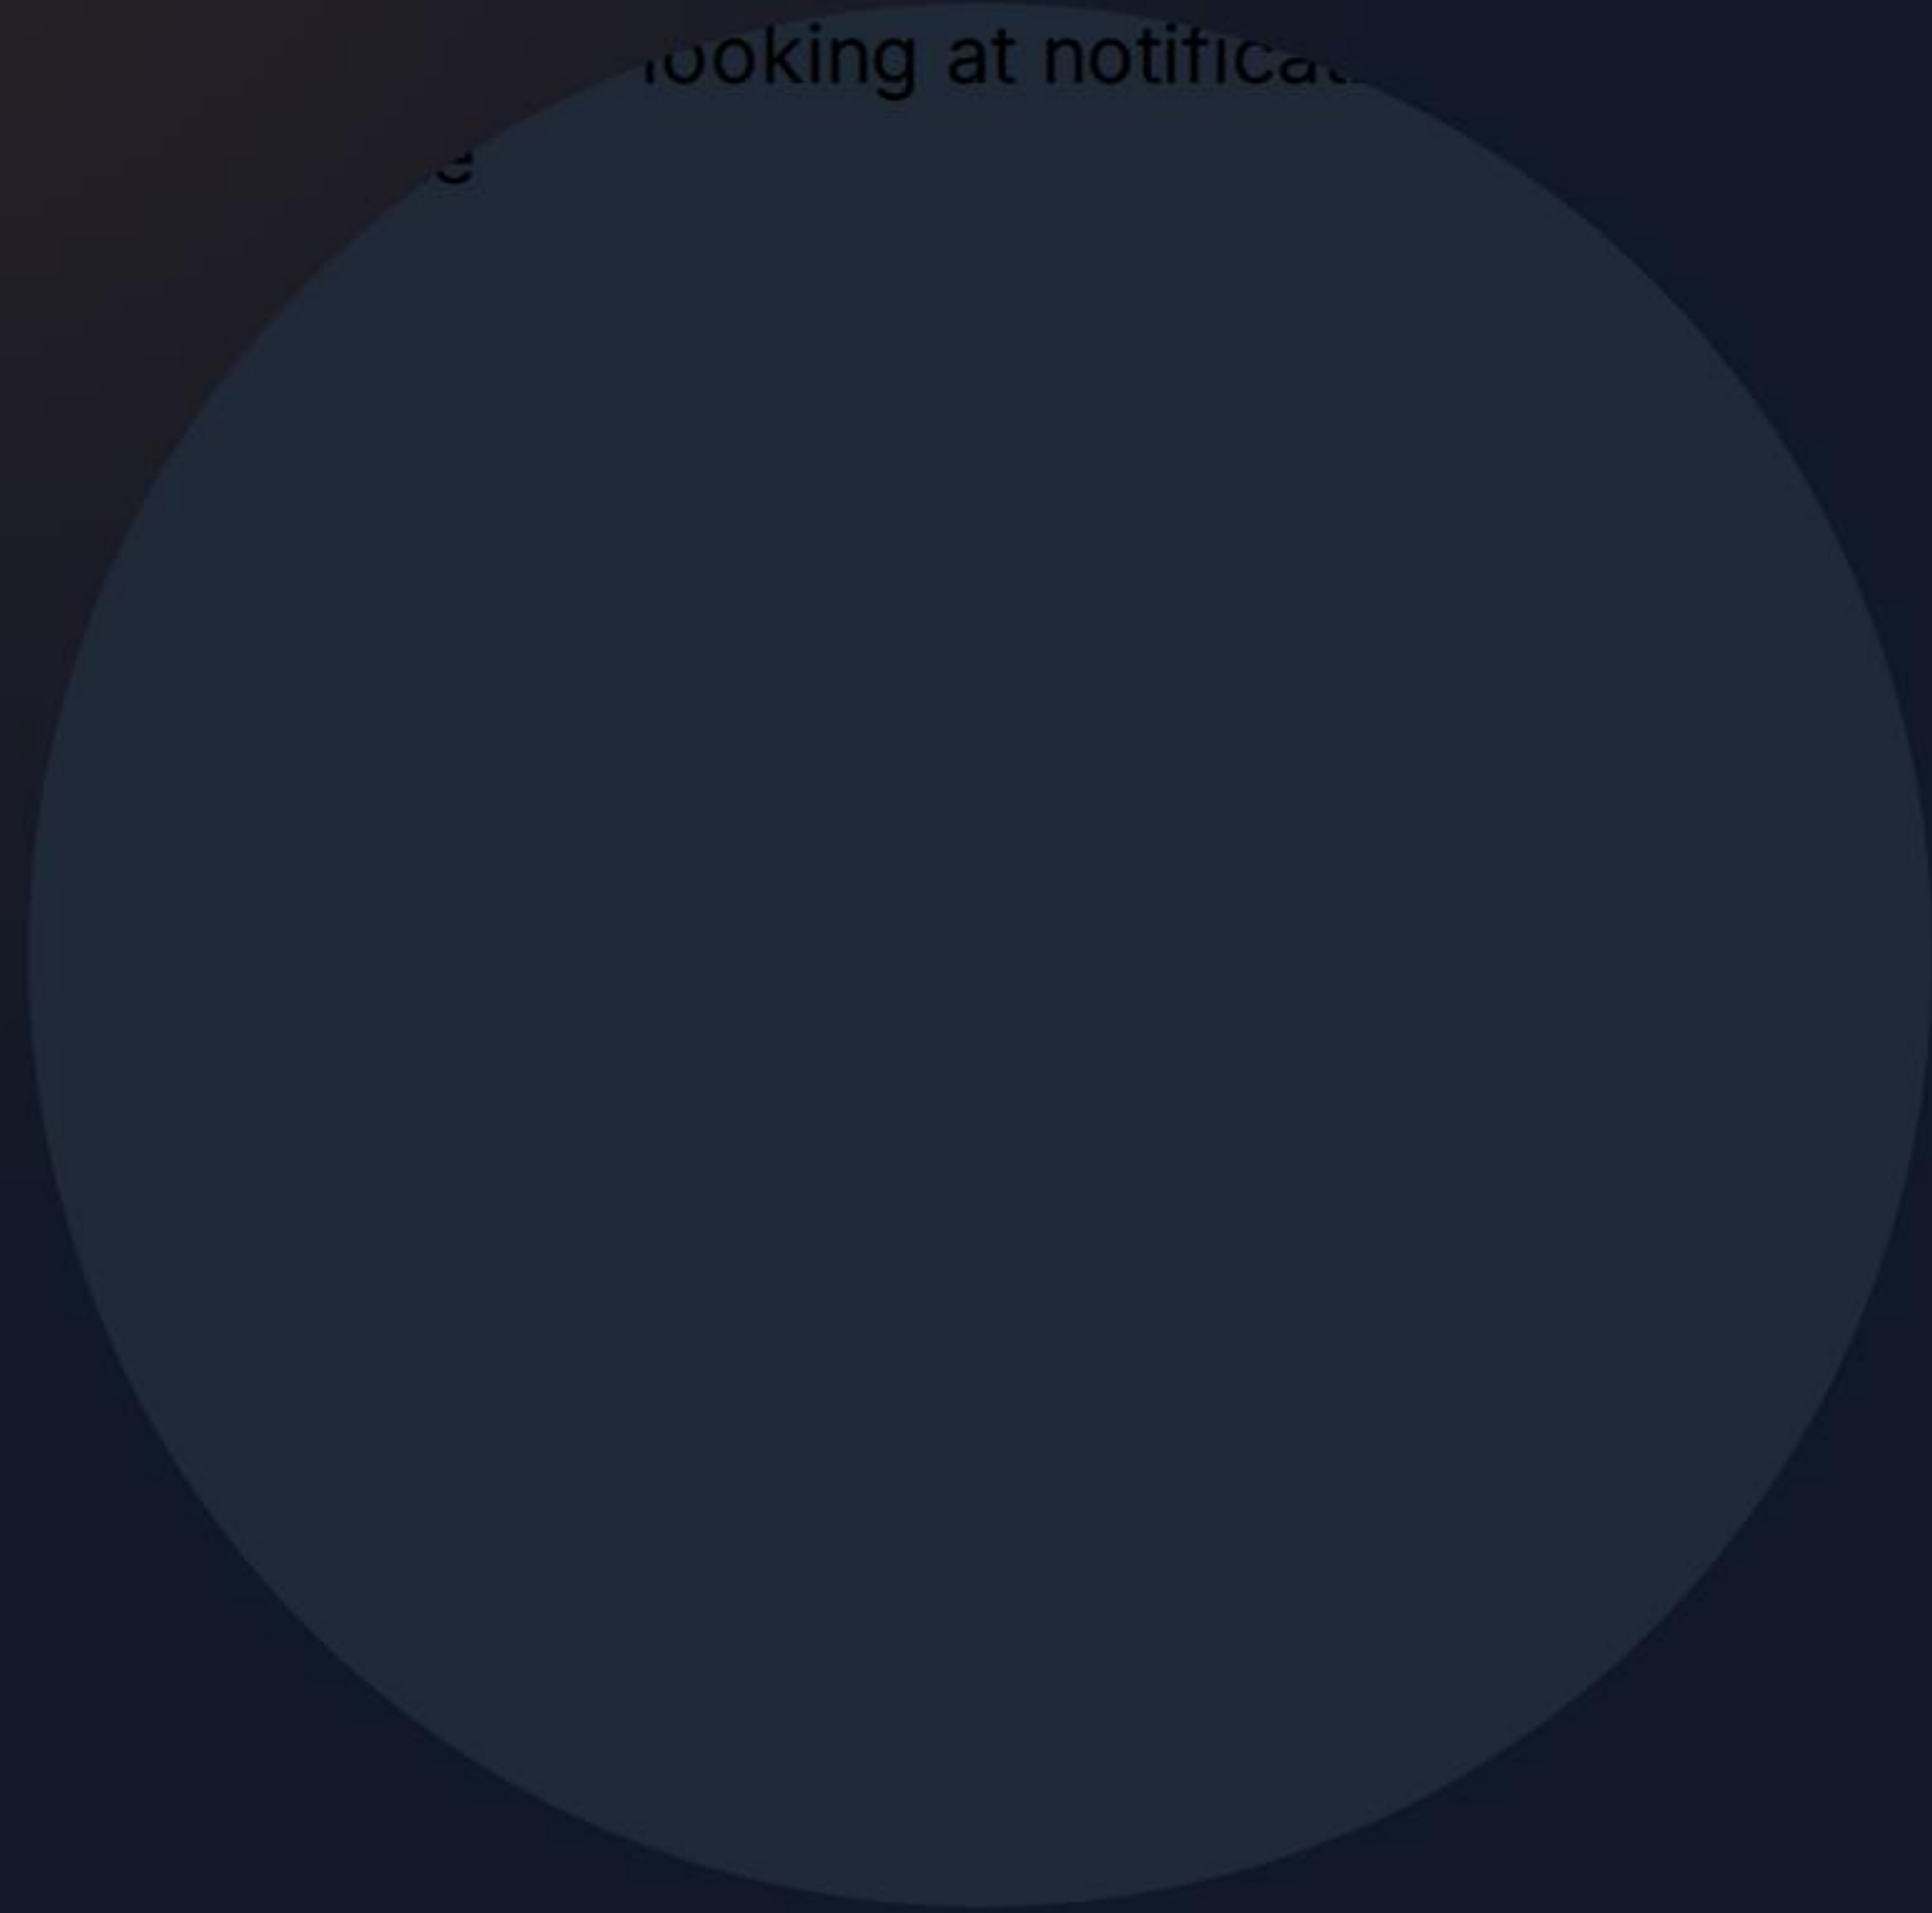

No paper tickets.

Say goodbye to lost paper tickets.

Real-time Kitchen Kanban boards with audio alerts. When a customer scans the QR and orders, the kitchen knows instantly.

Smart waiter alerts.

"Table 4 needs the bill!"

Customers can request water, cleaning, or the bill right from their phone. Your waitstaff gets a smart alert.

Faster service = happier customers.

Launching This Week!

We are selecting 2 local restaurants to use Ahhar.ai
completely **FREE** for 6 months.

DM us "AHHAR" to apply
